BOOK SYNOPSIS

When Riley Doogan met Finn Dunraven in Journey, she knew she was attracted to him--who wouldn't be?--but was afraid they were too different for a relationship to last. That was then. In this action-packed sequel, it turns out Riley and Finn have a lot in common--and not all of it good. Both are confronted with family secrets that force them to re-evaluate who--and what--they are. Both discover they have untapped powers, but those powers come with a price. And when the secrets from the past explode, and take dirty politics to a new level of madness that threatens everything and everyone they know and love, they both must decide not whether, but how far, to tap into their powers--dark and light.
